

HURRICANE™ TURBINE VENTILATORS

the proven answer for over fifteen years

COMMERCIAL PROJECT PROFILE

- LOCATION:** Edmonds Pty Limited
South Creek Rd, Dee Why
- BUSINESS:** Manufacturing plant for
Edmonds ventilation products.
- TASK:** Substantially reduce excessive
heat produced by powder
coating oven and improve total
air quality in the factory.

Unit 4

- SOLUTION:** Gradual installation and trial of
vents over affected areas, to determine actual efficiency. Last stage completed
September 2000 taking total vents on units 1 & 2 to :- **23 x H900, 6 x H800
Hurricane™ Turbine Ventilators**. And unit 4 to :- **6 x H900 Hurricane™ Turbine
Ventilators**

Units 1 & 2

- RESULT:** Fumes and dissipated heat produced by the powder coating oven substantially
reduced, in addition to a vast improvement in total air quality. This demonstrates
that a comprehensive ventilation system is needed to alleviate heating problems
in a typical factory situation.
