

# HURRICANE™ TURBINE VENTILATORS

the proven answer for over fifteen years

## COMMERCIAL PROJECT PROFILE

Job No.: 32136

**LOCATION:** Fima Building  
Garden Island, Sydney.  
Built in 1923 as Naval Fleet Maintenance Depot.

**BUSINESS:** Converted to a prestigious function centre on the shores of Sydney Harbour.

**TASK:** To provide a natural ventilation system to the building to ensure a comfortable environment for the guests. Mechanical ventilation was not considered a viable option for this project.

**SOLUTION:** Installation of 7 x H700 HURRICANE™ TURBINE VENTILATORS constructed from 5005 grade aluminium suitable for use in marine environments all powder coated Birch Grey and fitted with motorised dampers to provide climatic control during the colder months.

**RESULT:** The installation of the HURRICANE™ ventilators provided an efficient and cost effective solution to the ventilation problem.

**CONSULTANTS:** • Meinhardt, Consulting Engineers • National Project Consultants  
• Travis & Partners Architects
